

Pfropf-Phobie überwunden - Alternative zum Gummiring

Beitrag von „BruceM“ vom 31. August 2019, 22:27

Tim - Yes, stretchy, thin and strong. Easy to attach to the spines (sometimes I wrap around the plant rather than the pot, especially on taller grafts). No adhesive side like the Scotch tape. I can increase or decrease the pressure by how tight I pull the tape and it moulds around everything very easily.
