

## TH. "City Lights" - Winter flower

Beitrag von „LEM“ vom 1. Januar 2020, 20:58

[Zitat von amadeus](#)

I`m interested in how Long the Flower will last with that temperature.

I will keep you informed 🤖

But today I did an experiment: in the refrigerator I had some pollen collected in June from several Trichocereus hybrides: I put it on the pistil of the flower 😊
