😆😭😆

Cactus1976, do you speak English? Most people here speak German and a few of them can write a bit of English. There's barely anyone who understands what you're asking, so even if someone wants to help and answer they don't know how. Maybe you can use a translation plugin to translate from Italian into a language that we understand? You know, it's just shows that you try and care about the general forum language or etiquette. I only know like five words in Italian and I'm not allowed to repeat most of them here. 😉 Hope you can work it out.
