

BEA.2020

Beitrag von „Bravo-CLIA“ vom 24. Oktober 2020, 13:17

Many good crosses. According to our results, it will give lighter color on the F1 when the mother is *E.subdenudata*.

And I have seen an Asterix hybrid with a very short spines like the *E.subdenudata* hybrid, good luck. The flower is alike the Asterix indeed.
