

Bruce has his birthday

Beitrag von „hippocampus“ vom 9. Januar 2021, 12:10

I only wish you the very best, my dear friend Bruce on your birthday today.

Keep your wonderful humorous nature and enjoy our shared hobby.

May the cacti give you a veritable explosion of flowers this year.

Looking forward to share a glass (or two) of Champagne when we meet again, you know it contains very few of vitamins so we should have more

Jutta
