

Chamaecereus Hybriden 2021

Beitrag von „Bianca“ vom 15. Juni 2021, 14:37

Bonjour Elisa!

I'm not really an expert about this plant. I have the plants from eBay and from cactus kuentz.

All my plants are from France, and they are identical.

The plant in your first picture looks like mine.

But I don't know if mine are the "real" ones.
