

Th. Flying Dragon

Beitrag von „Stachelbär“ vom 18. Juli 2021, 23:56

Hello Qwertuiop!

Sorry, unfortunately we still have no real name from you.

Fact is that the FLYING DRAGON needs more water than other hybrids. My ones grow very fast up to 30cm per year and they bring lots of flowers.

I have seen plants that were smaller than yours and they brought huge flowers.

Bye,

Walter
