

# Echinopsis hybrids with Hildewintera as father?

Beitrag von „morgan“ vom 26. September 2012, 11:00

Thank you Gerard!

You're English is just fine!

It was a great explanation you gave and a very good schematic picture attached with it!

Do I understand you right?

You use **cement** (*regular cement for construction purposes*) on the stigma one hour before the actual pollination?

PS: I've seen somewhere people discussing "dusting with cement" but I thought it was a translation error.
