

Echinopsis hybrids with Hildewintera as father?

Beitrag von „morgan“ vom 26. September 2012, 17:12

Thank you again, this will open a new door for me! It'll be really interesting to try this out! To bad that there is no more pollen of "Aurora" in my freezer (I use to save pollen in the freezer, on cotton-sticks, a tips I've got from Ingo Bartels once).

If I make any progress with the mentioned crossing (HWH as father) I'll update the forum with info about it!
