

Own hybrid I call "Stella-Maria"

Beitrag von „morgan“ vom 14. Februar 2014, 00:43

Here is another photo, to judge from. As reference it's "Superapricot" in the background (the others are mostly my own hybrids).

If the majority of this forum find it inappropriate of me to name my hybrids (for my own record that is) I will stop sharing here and use this forum passively (as I have done most of the time, I use it frequently though).
