

# Own hybrid I call "Stella-Maria"

**Beitrag von „Enrico“ vom 14. Februar 2014, 12:04**

Hello Morgan

I am somewhat surprised about your harsh reaction. I did not at all intend to offend you, I confirmed it is a good flower and I did not criticize you, I didn't sentence you nor did I forbid you to name this plant 🤔. I only had some doubts if it makes sense to name this plant than you didn't even mention the parents of this plant. You should be aware as soon you mention a name in public this name will be used and searched.

But anyway I really do hope that you are enough openminded that you can accept little doubts or even an other opinion. About the color our eyes can correct the color between sun and shade, but the cameras can't and therefore your pictures are in different in the color. I only wanted to know which picture is closer to the real color.

Many regards 🙌

Erich
