

Own hybrid I call "Stella-Maria"

Beitrag von „muddyliz“ vom 14. Februar 2014, 15:29

Hi Morgan,

this is an eye-catching colour and the size is good. You are free to give it a name, and Stella-Maria is a pretty name. As the colour of the midrib does not contrast very much to the rest of the flower, you might cross it with a hybrid, that has a white or yellow midrib to enhance the contrast.
