

# A abnormal plant

**Beitrag von „Stachelbär“ vom 22. September 2014, 14:36**

Hello Qiyanwei!

It is a christat from a seedling. You can graft one normal head to see the flower earlier.  
I have grafted a few christats from seedlings and a few turned out to grow normal.  
I want to see a christat of a seedling in flower.

Bye,
