

Ist das ein F1???

Beitrag von „Bravo-CLIA“ vom 20. Dezember 2014, 03:22

HelloMatteo

the FLS's mother might be a hybrid,

as we well known, its sister

Yellow/Orange/Rosa/Red California always brings surprise that crossing with each other.

For example,

the TS 89, you can see the BHB's album,

it totally looks like a Yellow California, but its parents are

Rosa and Orange? California.

I do not know any result of the RL1534, Orange California+FLS
but there are some people repeat that, it must a nice crossing.
