

Arolen Grafting, Echinopsis sp vs Harrasia jusbertii

Beitrag von „Bravo-CLIA“ vom 12. Juli 2015, 04:55

Here a photo taken 24days ago.

Although it suffered the sunk of the surface but it grows well now.

Unfortunately, the KE2098-1(the one arolen on H.jusbertii) died. Maybe I am not correct on cutting the Arolen.
