

Pereskiaopsis Kellermanii

Beitrag von „Bravo-CLIA“ vom 20. Juli 2015, 10:36

Hello Heinz

Wow, it amazed me very much for what you did!

I never think use Pereskiaopsis sp to graft a cactus offset not seedling.

Maybe I will try with the TH I multiply. In China we use Pereskia to graft some offsets.

I have a Pereskiaopsis cv 'Gigant'.

Best Regards

Yunhan Zheng
