[Zitat von Bravo-CLIA](#)

Hello Ernst

these are very good plants! 🤖

Will you use these flower with white eyes as mother and EH as father for creating some interesting flower?

Hello, I do not use any plants for crossings, because I have no space at all. I need my space to multiply my good plants. Especially with Lobivia hybrids, that will take a while, because Lobivia hybrids are no strong growers.

Hier noch mal ein Bild von meinem diesjährigen CHH-Highlight. Ich werde sie gleich vermehren und Burning Ice nennen.
