I've got 2 flowers this week from Wessner hybrids.

13-2006 (the filled one)

20-2007 (black throat)

Hi Morgan,

the 13-2006 ist really my taste. Do you know anything about the size of this flower?

Hi Enrico!

The flower was around 12 cm diameter I'd say. I didn't measure it but it was a quite big flower.

Thank you Jürgen!

Yes I like it too! It has a really filled flower, many petals.

First time it flowered for me.

I had a short discussion about this flower at facebook with Stefan Reibenspies, he suggested that it could have "Uranus" inside. An observation I agree with.

Thank you for commenting!
