Hello , here I show the results from this wonderful cross.

Mother:Wörlitz

Father:Cantora Gelb

Züchter:Axel Neumann

The first one bloomed yesterday, but she is not the first one bloom from this cross.

They are sown by m hands, in 2017 I send them to a friend's place for grafting them to see the results in a shorter time.

I have named she as the Erdbeerwein

Here are some siblings, all FL Ø 16cm +

Beitrag von „Patrick“ vom 9. Mai 2018, 08:13

Hey mate, looks great. Obviously it's a good cross and I really like the whole batch you have there. The yellow one is probably the weakest (and it's still very good with how beautiful and big it is) but I'd probably keep that one too just because it can probably produce great offspring too. Thanks for showing.

Hey, did you craft them on Hylocereus?

Beitrag von „Bravo-CLIA“ vom 14. Mai 2018, 01:58

[Zitat von Enrico](#)

Hey, did you craft them on Hylocereus?

Yes, all are on the Hylocereus.
